Dominion Government Asks Public for a \$150,000,000 Loan

"Let your dollars serve Canada" is the slogan for the appeal which the Dominion Government has launched to raise \$150,000,000, "to promote the economic and financial welfare of Canada," as it is aptly put in the official circular containing details of the 1931 National Service Loan.

The offering of this considerable amount of bonds to investors is one of the most important financial undertakings this country has ever witnessed, certainly since the war days when victory bonds were offered in large amounts and readily subscribed to save the country from foreign aggression.

Now the necessity has arisen of saving the country from economic consequences of an extraordinary character, and that the public will respond with the same promptness is as unquestioned as when Canada stood on the verge of a cataclysm in the darkest days of the Great War.

Owing to world-wide conditions, economic problems are confronting Canada, which require the public to respond with the same promptness and in the same measure as when Canada faced the darkest days of the Great War. That is why the present appeal for funds is being made.

One of the important features of this issue is that the public will receive a little more than 5 per cent. on their investment. The bonds are being issued to mature at the end of five years.

Enjoyable Evening at the M. H. Ward Home

A very delightful party took place at the home of Mr. and Mrs. M. H. Ward last Friday evening. The party opened with a contest in which Elma Connell and Harry McCullough were winners, the prize being a box of delicious candy, which was enjoyed by all. From then until one minute after twelve the guests danced and at that time Miss Carol Chrestenson was presented with a birthday cake with candles on it (we have forgotten how many) for Saturday was her birthday.

A very delicious lunch was then served and another contest was guessed at, in which Mr. DeWitt and Harry McCullough were winners.

After the contest, the guests again danced for a short while and when the party broke up in the wee sma' hours of the morning everyone voted Ruby and her mother as very charming hostesses.

Those present at the party were: Mr. and Mrs. M. H. Ward, Mr. and Mrs. DeWitt, Mr. and Mrs. W. Steiner, Mr. L. F. Chrestenson, Misses Carol Chrestenson, Ruby Ward, Audrey Ward, Shirley Ward, Marjorie Leonard, Florence Holland, Frances McBride, Jean McBride, Helen McInenly, Frances McInenly, Gerlie MacLeod, Eileen Chrestenson, Elma Connell.

Catholic Ladies Entertain Husbands

The Catholic Ladies entertained their husbands to a banquet at the home of Mrs. Journey on Saturday evening, Nov. 14th. Five tables of whist were played. Mrs. O. Tott won the ladies first and Mr. Johnson and Mr. Lewendon drawing for the men's first. Mr. Johnson being the lucky one. Mrs. Weiss won the ladies' consolation prize and Mr. O. Tott the men's.

The guests present were: Mr. O'Leary, Mr. and Mrs. Journey, Mr. and Mrs. Stafford, Jr. and Sr., also Miss Stafford (Mossleigh) Mr. and Mrs. White, Mr. and Mrs. O. Tott (Queenstown) Mr. and Mrs. McRae, Mr. Bush, Miss Tighe (Shouldice), Mr. and Mrs. Weiss, Mr. and Mrs. Johnson, Mr. and Mrs. Bell, Mr. and Mrs. Lord (Arrowwood).

A vote of thanks was extended to Mr. and Mrs. Journey for the use of their home.

Notice to Wives and Sweethearts of Curlers

(An extract from the rules of the Royal Caledonia Curling Club, Rule 13, Sec. 23):

"All male members shall be exempt from household duties between the hours of 8:15 p.m. and 11:10 p.m., and shall give their undivided attention to the interests of the Curling Club, of which they are members, during said hours, on at least five (5) days each week. Members failing to comply with this rule will be strictly dealt with."

Community Shipment of Dressed Poultry Dec. 4th

A community shipment of dressed turkeys and all other poultry will be received at the store of L. F. Chrestenson & Co. on Friday, December 4th. List your poultry now. Don't forget the date and please deliver your birds early.

Prices which will be paid at the time of delivery will be announced as soon as possible before date of shipment. Points to bear in mind: Starve your birds well before killing. Food in their crops lowers the grade.

Cool well and be sure not to let your birds get frozen during the process. Do the cooling in a temperature just above freezing.

Be sure to protect your poultry from freezing on the way from home to point of assembly.

Be careful not to bruise. Good bleeding is essential, else the carcass will present a red, unattractive appearance.

This shipment is being handled under the auspices of the Alberta Poultry Pool.

nell, Jim Chisholm, Forest George Wilkinson, Leighton Sherman, Neil Pickerton, Jack MacLeod, Francis McInenly, Bill McInenly, Malcolm Taylor, Harry McCullough, Norman Earl and Victor Earl.

School Notes

The High School Literary Society held its regular meeting last Friday afternoon with the President, Ruby Ward, in the chair. A new editor-in-chief was elected because of the present editor being forced to resign.

The one elected, was Jack Clark who will hold this position until the results of the next exams are known.

The program consisted of: Reading—Miss Thelma Miller Piano Solo—Miss Victoria Barron.

Reading—Boynton Chrestenson.

Grades three and four The following pupils had 100% in their spelling test this month.

Gr. 3 Freda Board, Myrna Lord, Merlin Miller, Shirley Taylor, Kathleen Thompson.

Gr. 4 Grace Board, Verlyn Clark, Betty Ellen Jones, Charlotte Kelly, Doris Kerr, Inger Nissen.

The students in Miss MacLeod's room are putting on a program for their mothers on Friday afternoon.

Mr. Johnston: Boynton, have you talked today.

Boynton: Only want.

Mr. Johnston: Norman, is that correct, should he have said want?

Norman: No sir, he should have said twice.

Mr. Johnston was having a difficult time in teaching the grammar class to say It is I. "It is I," he said, "keep repeating it over to yourself and if you cannot remember it any other way remember this, 'It is I, I said the spider to the fly'."

The next day he endeavored to find out if any of his labors found results.

"What is that sentence, Malcolm," he said, "It is me, said the spider to the flea," Malcolm answered.

Surprise Party for Mr. and Mrs. DeWitt

Quite a number of people gathered at the home of Mrs. D. J. McInenly on Wednesday evening, Nov. 25th, in honor of Mr. and Mrs. M. DeWitt, newlyweds of this district. The evening was spent in playing whist, tables being used. Mr. A. Tharlie won the Ladies first prize and Mr. D. Richards gent's first. Booby prizes went to Mrs. DeWitt and N. Washburn.

Mr. A. H. Tharlie, in a few well chosen remarks, wished the bride couple a long and happy married life and presented them with some silver ware from their friends, who all joined in singing "For They are Jolly Good Fellows" with Miss Frances McInenly at the piano. A delicious lunch was enjoyed by all. The young people remained for a dance.

Many a curler or prospective curler hopes to hold the lucky number next Saturday night. It not only means a free pair of curling rocks but a refund of half of his or her membership fee. Here's hoping.

Curling Off to a Good Start

Saturday evening saw the first sheet of ice at the Curling Rink being initiated by John Mackie, Jr., and Paul Norton on the 7 p.m. draw. E. C. Bowman and James Ward made up two rinks for the 9 p.m. draw. Both first named skips winning their games.

The ice was in good condition, running stones taking either turn very nicely.

Owing to the light snowfall and absence of adequate foot mats, considerable dirt collected on the ice during the last game.

Semi-Annual Meeting of the Curling Club

The semi-annual meeting of the Arrowwood Curling Club was held in the club room Thursday night. About thirty curling enthusiasts were in attendance and all looked forward to full membership and a successful season.

After considerable discussion on ways and means it was decided to change the fees to \$5. for men and \$2.00 for ladies. Some doubt was raised as to being able to pay expenses with such small fees, but the majority thought it possible inasmuch as no caretaker would be hired; this work being done by volunteer labor.

The following officers and committees were elected:

President—J. Mackie Sr. Patron—J. Mason.

1st V. P.—P. Norton. 2nd V. P.—C. McInenly.

Sec. Treas.—R. E. Hales. Chaplain—J. S. Gulp.

Executive—J. Mackie, Jr., G. G. Smith, E. Lewendon, R. R. Saunders, J. Hesketh.

Membership Committee—J. P. Beagle, L. F. Chrestenson, M. Esham, R. R. Saunders and E. C. Bowman.

Following last year's schedule Friday night of each week will be open night, thus providing one night a week for visiting rinks and bucket competitions.

Mr. Saunders offered to donate a pair of curling rocks to be given away in connection with a fowl supper. The meeting expressed its appreciation of the offer and went into details of arranging for the supper.

After considerable discussion it was agreed to put on the big feed Saturday, November 28th adult tickets good for one chance on the curling rocks and supper 50c, children's tickets, supper only, 25c. The following committees were appointed to look after the supper.

Mrs. J. Mackie, Sr., Mrs. R. R. Saunders, Mrs. R. N. Moir, E. C. Bowman, and E. Lewendon.

Messrs. G. G. Smith, F. Miller, E. S. Board and J. P. Beagle are in charge of the selling of tickets for the supper.

J. Mackie, Sr., was unanimously appointed umpire.

All curlers owning curling rocks and having them available for other clubs when not being used by the owners will be paid rental equal to half of the annual membership fee.

Ladies' Guild Bazaar and Supper a Success

The Ladies Guild Bazaar and Supper held on Saturday, Nov. 21 was a decided success. Practically all articles offered for sale were disposed of, and the supper receipts show a splendid attendance.

A new departure this year was the "Made in Canada Sale" which helped to swell the funds appreciably.

The members of the Guild wish to thank the community for their patronage, and the local merchants as well as the following Canadian Manufacturers for their donations:

Bissells—Niagara Falls, Ont. Canadian Industries—Montreal.

Y. P. S. Meets at Tharlie Home

The regular semi monthly meeting of the Y.P. Society of the United Church was held last Thursday at Mr. and Mrs. Tharlie's. The group motored out and after all had arrived safely the meeting was called to order by the Vice-President Miss McLeod.

The meeting took the form of devotional and Rev. Mr. Gilbert conducted this very well. Upon the adjournment of the meeting lunch was served after which the party set out for Arrowwood. The return was very thrilling as there was a terrible blizzard raging at the time.

Surprise Newlyweds

On Wednesday evening a number of the friends of Mr. and Mrs. Wilbur Brubaker, made up a surprise party and drove out to their home. A very enjoyable evening was spent in games and contests. Chester Johnson's yodelling and Paul Irwin's performance on the guitar added greatly to the evening's pleasure.

After lunch had been served the party left for their homes wishing the newlyweds a long and happy life.

Let's Speak Up

John Wesley was a most practical man and had he lived in the days of William James we are sure he would have been a Pragmatist. Qualified by the reserve of an English gentleman he might be considered a worshipper of the American idea, "Nothing succeeds like success." The story is told how he once questioned a lay worker about his preaching.

"Was anyone converted?"

"No," came the reply.

"Were any under conviction?" was then asked and received the same reply.

Then Mr. Wesley asked: "Did you make anybody angry?" He had and his chief commended him because he had at least gotten somewhere.

Now there is such a thing as "darning with faint praise." It isn't always what we say nor yet the manner in which we say it. It is what we imply which may be just the opposite of our words. Hints and veiled suggestions are unseemly but friendly criticism is bound to be constructive.

But chill indifference wrecks ruin. One can stand up against hostile criticism but to be unconcerned saps vitality, and no effort ought so to be received. If we have objections, it does no harm to express them, and all too often we let pass an opportunity to give well deserved praise.

Now, our little paper is a credit to the community, as a whole, probably the most energetic enterprise in our midst. Our editor and publisher is a rare good fellow, a real credit to the town. The atmosphere of the print shop and the healthy outlook of the paper is far above the average. A word of appreciation is always in order, but a helpful criticism is just as welcome. Then let's speak up.

UNUS SOLUS.

Home Isolation

The communicable diseases against which all parents desire to protect their children are very often spread as a result of carelessness on the part of some person.

No one would deliberately hurt or injure a child. No one wants to cause a child suffering. Yet suffering, injury and sometimes death follow the carelessness or thoughtless actions which lead to the spread of disease.

One reason or explanation for this is that so many persons do not understand that the child who is not well should be isolated, kept away from other children. This may seem unreasonable and unnecessary because, in most cases, it will be found that there is nothing seriously wrong with the child and he could not have caused any harm to other children.

However, no one can say what is going to happen. The child who is not well today may be developing one of the communicable diseases. If so then he will likely pass it on to those with whom he comes into contact. The only way to be sure that isolation is carried out when it is needed is to

isolate every time the child who is not well.

In the home where there are several children, the practical way to isolate the child who is not well is to put him to bed and keep the other children out of his bedroom. The dishes of the sick should be boiled.

Protection can be secured only if the necessary effort is made. In general the communicable diseases are most infectious in their early days before the appearance of the rash or other typical symptoms. It follows that if the spread of these diseases is to be prevented, precautions must be taken from the first.

It is evident that the parents who wait until their child comes out with the rash of the disease or until the child is actually ill before separating him from others has not given reasonable protection to the children.

The isolation of every child who is unwell until it is certain that he has not a communicable disease may be the means of preventing the spread of disease both in the home and outside. Indeed this precaution may save the lives of other children.

For his own sake, the child who is not well should be in bed. For the protection of other children he should be kept away from them until it is known what is wrong with him.

At the Crossroads

He stood at the crossroads all alone.

The sunrise was in his face; He had no thought for the world unknown.

He was set for a manly race. But the road stretched east and the road stretched west, And the boy did not know which road was best.

So he took the wrong road, and

went down.
And he lost the race and the victor's crown.
He was caught at last in an angry snare,
Because no one stood at the crossroads there
To show him the better road.

Another day at the self same place,

A boy of high hopes stood: He, too, was set for a manly race,

He was seeking the things that were good.

But one was there who the roads did know,

And that one showed him which way to go;

So he turned from the road that went down,

And he won the race and the victor's crown,

He walks today the highway fair,

Because one stood at cross roads there,

To show him the better way.

Is it "ei" or "ie"?

Do you have difficulty in deciding whether it is "ei" or "ie"? Memorize this verse and you'll never stumble again over this snag on the road to perfect spelling:

When "ei" and "ie" both spell "e"

How can we tell which it shall be?

Here is a rule you may believe, That never, never will deceive, And all such problems will relieve:

A simpler rule you can't conceive,

It is not made of many pieces

To puzzle daughters, sons and nieces.

Yet with it all trouble ceases,

After "c," an "e" apply.

After other letters "i"

Writes a letter to his liege

Or an army holds its field

And will never deign to yield

While a warrior holds a shield

Or has strength his arm to wield

Two exceptions we must note

Which all scholars learn by rote.

Leisure is the first of these,

For the second we have seize.

The number of Canadians who are part owners of the Canadian Pacific continues to increase. A year ago, on September 2, the total number of the company's Canadian stockholders was 26,185.

On September 1 of this year the number had grown to 35,217, an increase of 9,032 shareholders.

Many of these have been added since the recent break in the security markets carried stock prices to new low levels, indicating that Canadians have confidence in the country's ability to "come back" to prosperity.

Dominion Government Aaks for Loan

(Continued from page 1)

according to the wishes of investors. The five year bonds are priced at 99½ and the ten year maturity at 99. Both classes can be obtained in denominations of \$500 and \$1000, but the five year issue can be obtained in \$100 lots, which will appeal to people of modest means.

The interest dates are May 15th and November 15th, the interest rate starting to accrue from November 15th 1931. Fully registered bonds of larger denominations running up to as high as \$100,000 are also obtainable with the interest payable on these direct to the holder by Government cheque.

All banks in Canada and their branch offices are authorized to accept subscriptions as well as all recognized bond dealers throughout the Dominion.

General feeling in well-informed financial circles is that there will be adequate response on the part of the investing public to make this issue a great success. There is profound confidence among bankers and other leaders in the realm of finance, that Canadians can be depended upon to back up their country with their money when call is made for their assistance.

That there is a large amount of money awaiting favourable opportunity for investment on some high-class security, such as a Government bond provides, is unquestioned. The public have savings in the various banks aggregating upwards of \$1,500,000,000. The total approximates an increase of \$40,000,000 over the figures of a year ago, which goes to show that the public are displaying pronounced habits of thrift, one of the healthiest signs possible for any country to exhibit.

Besides this source of purch-

asing power, it is stated on good authority that trust companies hold a substantial reservoir of funds which would come into service in connection with just such an offering as the Dominion of Canada is making through the Department of Finance at Ottawa.

These are encouraging factors which ought to crown the offering with success if the public at large second the efforts of financial organizations of the country.

Where Does Oil Pumping Occur?

In an engine running at high speed, this ring which doesn't fit the cylinder thins the film only at the two or three points of contact that it is making. At those points where it does not fit the cylinder wall, the ring is actually skidding over the top surface of oil film, allowing the oil to pass upward. This action is proportional to the speed of the engine. We all know that an automobile engine consumes more oil when traveling at high speeds than during low or medium speed driving. So we see that the first place that oil can be pumped up past the piston and rings is between the ring and cylinder wall and that when the motor is operating at high speed the tendency for this to occur is greater.

On the down stroke, there is a tendency to build up a considerable amount of oil pressure between the skirt of the piston and the cylinder wall and this pressure oftentimes becomes sufficiently great to force rings of this type away from the wall into the groove, the oil rushes upward over the face of the ring.

These same rings are fitted loosely in the groove because they must be able to "breathe," as they must assume a different diameter at each position they take in their travel because of the funnel shaped condition of the cylinder when it's operating. This means there is clearance between the sides of the ring and the sides of the ring groove, consequently, a second passageway is opened for the passage of oil from the crank case to the combustion chamber. Oil pumping, at the point, is exaggerated on negative idle. As the ring rammers up and down in the groove it wears away the supporting lands and, of course, the size of this passageway is increased.

Blue Moon

Last night the moon was blue,

Blue as a moon can be;

And let me tell you

As the moon told it to me.

You would be blue, said she.

If you'd to gaze upon

The human race and see

The way they carry on;

If from the lonely sky

You had watched them eoo

And cuddle, kiss and sigh,

With never a kiss for you;

You'd be as blue a jay

If you were in my place.

Why do folks get that way

Whenever they see my face?

The Curlers played their first button competition of the season on Wednesday evening when the challengers, composed of J. Mackie, Sr. (skip), J. Mackie, Jr., 3rd; J. P. Beagle 2nd, E. C. Bowman defeated P. Norton (skip), F. L. Chrestenson, 3rd; J. Hesketh, 2nd; D. Duncan, 1st, holders of the buttons from last year, in a close game, 10-11.

Considering the amount of good clean sport that a \$5.00 curling fee represents, it would be impossible to get any more for your money in any other form of amusement. Times are hard and money scarce but when you consider how little recreation the average farmer, business man, or working man has had in the past year, this small expenditure is a good investment. All work and no play is anything but good for anyone. No other game creates that feeling of friendly competition, gives the participants the necessary out-of-door exercise so essential to both young and old or brings groups of people together under the health giving conditions, than curling.

Winter Sport

The Curlers had their meeting and seem to be away with a good start. Now let us get-together and give the skaters a boost so that this popular sport may be underway. Let us not forget the Hockey team. Arrowwood has some promising material and nothing puts a town on the map more than a good Hockey team.

Is beats all how business holds up under the strain of the apparent depression. Some times it is cheaper to buy than to go without, but its mighty hard to draw the line just when to discard that old wornout machine and replace it with a new one and it requires some real good head work to make the decision—not the kind that the blacksmith used when he explained to his Irish helper that he would draw the horseshoe from the fire and lay it on the anvil. When he nodded his head he was to hit it hard with the hammer. This Pat did—and was immediately fired when the blacksmith recovered.

If it is pump engines, washing machines, radios, tires and tubes or even repairs for

your machinery, we are always glad to wait upon your wants. There is no one who appreciates your business more than we do.

Teacher: "Give me a sentence using the word analyze."

Tommy: "My sister Anna says she never paints, but, oh, how Analyze."

Quite recently a customer was debating with herself whether to buy a radio or a washing machine. To make a long story short she purchased a New Maytag and since using the new washer she is sure she chose wisely. While we know the radio would play several beautiful tunes the New Magtag plays the best tune on wash days.
